### How I Can Add Value

I have had opportunities and experiences that taught me communication and leadership. I was captain of my school's basketball team. While in that role I received Academic All-American, my team won the Region Championship and we had the best record in the state of Utah. I also served a mission for my church that put me in situations where communicating well and leading with humility were needed. Through these experiences I have gained traits that will help me in this role. I am a V School graduate. My areas of expertise include **JavaScript, ES6, React, HTML, CSS, Node.js, Express, AJAX/HTTP, Mongoose, MongoDB, JSON, Git.**

#### WHAT I'VE DONE

##### Rock The Vote

<https://rockin-the-vote.herokuapp.com>

- <https://github.com/13joewhite/rock-the-vote>
- This is a site that allows the user to log in or sign up and create, like, comment, or dislike theirs or others posts.
- Built with: React, Mongoose, MongoDB, JSON, CSS, Express, Node.js, Axios

##### Bounty Hunter
